

SEVENTH ISHPMIE PROCEEDINGS  
VOLUME III

SEVENTH INTERNATIONAL SYMPOSIUM  
ON HAZARDS, PREVENTION,  
AND MITIGATION  
OF INDUSTRIAL EXPLOSIONS:

Thirteenth International Colloquium on Dust Explosions  
&  
Eighth Colloquium on Gas, Vapor, Liquid, and Hybrid Explosions

St. Petersburg, Russia

July 7-11, 2008

## CONTENTS

DUST AND HYBRID EXPLOSIONS .....	1
The DeBruce Grain Elevator Explosion	
<i>C. W. Kauffman</i> .....	3
Assessment of Explosion Risk of Magnesium Dust	
<i>M. Nifuku, H. Ohya, and Sh. Koyanaka</i> .....	27
Statistical Method for the Determination of the Ignition Energy of Dust Cloud: Experimental Validation	
<i>K. Lebecki, S. Bernard, Ph. Gillard, L. Youinou, and G. Baudry</i> .....	36
Influence of Viscosity of a Liquid Phase to Explosion Safety of Chemically Active Bubble Medium	
<i>A. V. Pinaev and I. I. Kochetkov</i> .....	46
Heterogeneous Combustion of Polydispersed Carbon Dust	
<i>V. F. Nikitin, A. S. Parkhomenko, N. N. Smirnov, and V. N. Yanushkevich</i> .....	53
Correlation Between Drop Vaporization and Autoignition Phenomena	
<i>S. M. Frolov, V. Ya. Basevich, F. S. Frolov, A. A. Borisov, V. A. Smetanyuk, B. Basara, P. Priesching, and R. Tatschl</i> .....	64
Static Electrification of Powder and Dust Explosion	
<i>M. Nifuku</i> .....	73
Modified Model of Aluminium Particle Ignition	
<i>K. A. Avdeev, F. S. Frolov, A. A. Borisov, and S. M. Frolov</i> .....	97
Influence of Particle Size and Ethylene Admixture on Polyethylene Dust Explosions	
<i>P. Amyotte, N. Marchand, A. Di Benedetto, P. Russo</i> .....	103
Simplified Modelling of Metal Dust Explosions	
<i>B. J. Arntzen, T. Skjold, and H. T. Johannesen</i> .....	113
Origins of Correlations for Vented Dust Explosion and Elements for Their Application	
<i>J. Taveau</i> .....	120
Regimes of Combustion and Detonation of Gaseous and Heterogeneous Systems in Inert Porous Mediums	
<i>A. V. Pinaev and A. A. Vasil'ev</i> .....	131
Shock Induced Explosion of Oxygen Containing Bubble in a Flammable Liquid: Safety Aspects of Fuel Condensation And Evaporation	
<i>P. A. Fomin, J.-R. Chen, and H. Hieronymus</i> .....	141
Experimental Studies of Hydrogen/Oxygen Bubble Explosions	
<i>Z.-Sh. Huang, Ch.-D. Liu, P. A. Fomin, and J.-R. Chen</i> .....	151
Explosion of Rich Metal-Solid Oxidizer Mixture Injected in Air by Superheated Kerosene Steam	
<i>P. V. Komissarov, A. A. Borisov, G. N. Sokolov, and R. H. Ibraghimov</i> .....	162
Investigation of the Reaction Kinetics in the Ammonium Nitrate/Potential Donor of an Active Chlorine Mixtures and Explosion Possibility in These Mixtures	
<i>V. V. Nedelko, A. I. Kazakov, A. V. Shastin, T. S. Larikova, T. V. Sorokina, B. L. Korsounskii, and Y. I Rubtsov</i> .....	179
Afterburning of TNT Detonation Products in Air	
<i>L. Donahue, M. J. Pegg, and F. Zhang</i> .....	187

Effects of Reactive Nano-Composites in Place of Aluminum Particles in Performance of Non-Ideal Explosives <i>K. Kim, W. Wilson, C. Needham, and C. Watry</i> .....	197
Efficiency of Underwater Explosion Produced by Fast Injection of Preheated Aluminum Particles in Water <i>R. H. Ibraghimov, P. V. Komissarov, A. A. Borisov, and G. N. Sokolov</i> .....	202
PREVENTION, MITIGATION, AND RISK ASSESSMENT .....	217
Modelling and Simulations of Flame Mitigation by Fine Water Spray <i>A. Yu. Snegirev and A. L. Lipjainen</i> .....	219
The Limiting Concentrations of Gaseous Suppressants in Relation to a Jet Flame at Their Simultaneous Supply into a Fuel and Air <i>V. V. Azatyan, Yu. N. Shebeko, A. Yu. Shebeko, and V. Yu. Navzenya</i> .....	231
An Experimental and Numerical Investigation of the Phlegmatization of Methane–Air Mixtures by Organophosphorus Compounds <i>O. P. Korobeinichev, A. G. Shmakov, D. A. Knyazkov, and S. A. Yakimov</i> .....	242
Role of Chain Reactions in Inhibition of Spontaneous Decomposition of Acetylene <i>S. V. Golovastov, D. I. Baklanov, V. V. Golub, I. N. Laskin, and V. V. Volodin</i> .....	250
Reduction Effects of Water Spray to the Thermal Hazard of Hydrogen Jet Flame <i>T. Imamura, Sh. Hamada, T. Mogi, Yu. Wada, S. Horiguchi, A. Miyake, and T. Ogawa</i> .....	256
The Dispersion Characteristics of Micromist in Enclosures — a Proof of Concept Numerical Study on Using Micromist as a Soft Barrier for Explosion Control <i>V. H. Y. Tam, B. P. Xu, and J. X. Wen</i> .....	267
Extinguishing of Fires Using the Aerosol Generator with Adjustable Dispersity and Aqueous Solutions of Salts as a Flame Suppressants <i>O. P. Korobeinichev, A. G. Shmakov, A. A. Chernov, V. M. Shvartsberg, K. P. Koutsenogii, and V. I. Makarov</i> .....	277
Shock-Wave Effect on the Fire <i>I. S. Anufriev, A. N. Golovanov, A. F. Tsimbaluk, and O. V. Sharypov</i> .....	284
An Evaluation of a Fire and Explosion Hazard of Oil Product Storage Located Near a City <i>Yu. N. Shebeko, I. A. Bolodian, D. M. Gordienko, V. L. Malkin, and D. S. Kirillov</i> .....	290
Experimental Simulation of an Atmospheric Deflagration for the Testing of End-of-Line Flame Arresters <i>S. Mecke, D. Markus, and H. Forster</i> .....	295
The Effectiveness of Dust Explosion Suppression by Water Sprays <i>M. Gieras</i> .....	305
Explosion Protection by Suppression on a Bucket Elevator in a Brewery. A case study <i>A. Wolff and B. Wolff</i> .....	316
Numerical Investigation of Terrain Effects on Blast Wave from Hemispherical Surface Burst <i>H. Miura, T. Nirasawa, and A. Matsuo</i> .....	322
Emergency Explosions in the Systems of Distribution and Consumption of Natural Gas <i>V. F. Martynuk</i> .....	330
Risk Assessment for Liquid Hydrogen Fueling Stations <i>Sh. Kikukawa, H. Mitsunashi, and A. Miyake</i> .....	334
Decision Support Systems on Hazards of Industrial Explosions <i>V. E. Volkov</i> .....	343
AUTHOR INDEX .....	348
