Combustion and Pollution: Environmental Impact / [Edited by
Г 67 G. D. Roy, S. M. Frolov, A. M. Starik]. — Moscow: TORUS PRESS Ltd.,
2005. — 312 p. Tabl. 19, ill. 154.

ISBN 5-94588-030-2

The book contains revised and edited articles addressing the issues of combustion science and technology, combustion-generated pollutants, and technogenous aerosols and their environmental effects, written by world-known experts. The volume will be useful for practicing engineers and researchers working in the field of combustion, propulsion, and atmospheric chemistry, experts in environmental protection and safety, and can serve as a reference book for graduate students in these fields of science and technology.
